

amplifEYE

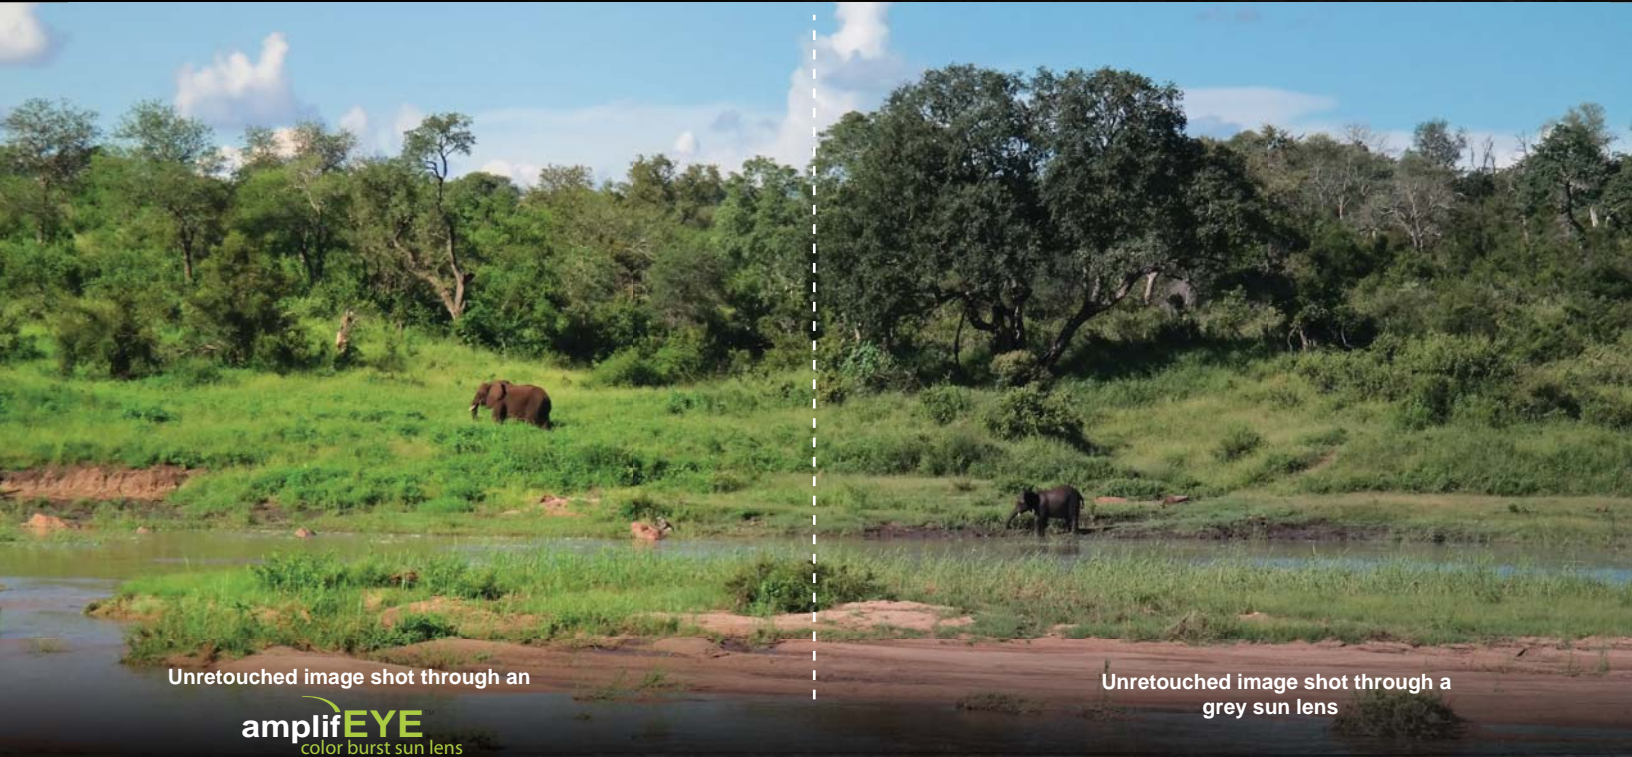

color burst sun lens

It's like HDR for your EYES!

Through advanced spectral filtration, amplifEYE* lenses selectively block color waves for a more vibrant and saturated view of the world.

Designed for outdoor use, haze and glare are virtually eliminated and color contrast is enhanced for surroundings bursting with color.

Available in plano and SFSV, amplifEYE lenses boost color perception for vivid shades of blue, green, and red.

Plano Availability	Base Curve
Plano 1.56	6 and 8
Plano Polycarbonate 1.58	6

Plano Add-Ons
Back Side AR Coating
Front Side Mirror Coating
Front Side Mirror + Back Side AR Coating
